

New Technical Manual for the Millennium Converged Communications Platform

eOn Communications is excited to announce the availability of a new Millennium Technical Manual, Issue 9. As of June 15, 2009, this issue will ship with the Millennium system on CD at no additional charge. All of the PDF files are available now to download from eOn's [Partner Portal](#). The printed 3-volume set is also available for purchase.

Issue 9 incorporates all of the new feature enhancements and VoIP capabilities that were added to the Millennium platform over the past few years up to the current software release V3.12. All of the hardware drawings and descriptions have been updated to the current revision level. In addition, there are several new sections including a VoIP Applications section with network planning recommendations, programming examples and diagrams. The new manual consists of the following:

Volume 1 – General Information & User Guide

Documentation Pricing

The manual on CD will ship with new Millennium system orders at no additional cost, but if ordered separately without a system there is a charge. The CD also contains the latest software release notes, the eNterprise telephone quick reference guides, and a single PDF of the entire manual for word searches. The printed manual is also available to order as a 3-volume set.

Please contact an eOn Channel Partner for pricing and to place an order. If you need to locate a local reseller, please contact eOn Customer Service at 877.288.8823 x163.
